INFORMATION

K5600 offers the most practical, compact and economical solution for AC/DC operation of Small HMI Sources in the field. No need for extra gear, DC Ballasts or inverters, one Power Supply does it all.

The Joker-Bug 200 and Joker-News 200 can be operated on either 30V Belts or Anton Bauer 14.4 Batteries as well as 110/220V A.C., anywhere, anytime and for as long as you wish.

Weight: 4.4 lbs (2 kg)
