

**INFORMATION**

K 5600, Inc introduces the Focal Spot, which gives your current Joker-Bug 200W, or 400W immediate projection capabilities.

Made from machined aluminum, the compact (less than 10 inches in length) and lightweight (less than 1.5lbs.) Focal Spot can adapt to any Joker-Bug wattage by simply removing the optical beamer with the twist of a thumb screw. No further assembly or disassembly of your Joker-Bug is required to achieve a multitude of projection lighting effects.

The Focal Spot is equipped with a 20 and 40 degree lens, adding additional versatility. Standard M-sized gobos can be used to project patterns, and the lenses can be focused to create either a hard or soft look. Cutters are outfitted to enable shaping of the light pattern to fit all requirements.

**SPECIFICATIONS**

Distance (Feet)	Foot-Candles					
	200W		400W		800W	
	20 Deg	40 Deg	20 Deg	40 Deg	20 Deg	40 Deg
3	3,900	1,200	8,480	2,640	12,200	4,080
6	975	300	2,120	660	3,050	1,020
